PROFESSIONAL SUMMARY

Full Stack Python Developer with hands-on experience building REST APIs with FastAPI, integrating React.js/Next.js frontends, and managing PostgreSQL databases with SQLAlchemy. Strong foundation in secure authentication (JWT, RBAC), API integration, and responsive UI development. Background in Artificial Intelligence and Machine Learning through academic and project work. Looking to grow as a full stack engineer on projects that combine backend reliability with AI-driven features.

PROFESSIONAL EXPERIENCE

Full Stack Python Developer — VN Softverg Technology
June 2026 – August 2026

AI-LMS (AI-Powered Learning Management System)

- Developed a multi-tenant LMS with separate data access for different organizations and role-based permissions.
- Built asynchronous REST APIs using FastAPI, SQLModel, PostgreSQL, and asyncpg.
- Developed responsive frontend modules using React, TypeScript, MUI, and Redux Toolkit with RTK Query.
- Implemented corporate management features including offices, departments, course management, and assessments.
- Integrated JWT authentication, password hashing, and secure API access.
- Managed database schema changes and version control using Alembic migrations.

HRM (Human Resource Management System)

- Developed and integrated notification settings to manage user notification preferences.
- Implemented employee checkout functionality using FastAPI REST APIs.
- Added checkout time, location, device ID, device type, and IP address tracking.
- Implemented automatic work-hours calculation based on check-in and checkout times.
- Integrated React.js frontend with FastAPI backend for smooth attendance and notification workflows.
- Implemented REST API integration and request/response handling for attendance-related operations.
- Worked with PostgreSQL database operations to store and manage employee attendance and notification data.

EDUCATION

B.Tech in Artificial Intelligence and Data Science
Oct 2022 – May 2026
Annamacharya Institute of Technology and Science, Rajampet, Andhra Pradesh, India — CGPA: 8.12 /10

Sri Chaitanya Junior College
Dec 2020 – Mar 2022
Intermediate(MPC), Kurnool, Andhra Pradesh, India — Percentage: 77%

Board of Secondary Education
2020
Good Shepherd EM High School, Nandyal, Andhra Pradesh, India — CGPA: 8.7/10

PROJECTS

Random Password Generator
2025
Python, Flask, HTML5, CSS3, JavaScript

- Built an interactive Flask web application to generate cryptographically secure passwords using Python's secrets module, ensuring compliance with OWASP password guidelines.
- Designed a responsive UI with customizable length and character sets, 3D animated Canvas background, copy-to-clipboard functionality, and export options in text/CSV format.
- Tested cross-browser compatibility and optimized backend performance for secure, reliable password generation.

Face Emotion Detector
2025
Python, Flask, OpenCV, DeepFace, HTML/CSS, JavaScript

- Created a real-time facial emotion detection web application using Flask, OpenCV, and DeepFace for AI-based emotion recognition from images and webcam feeds.
- Detected seven emotions (Happy, Sad, Angry, Fear, Surprise, Neutral, Disgust) and built a responsive interface supporting both image upload and live webcam prediction.
- Applied computer vision and deep learning techniques to achieve accurate facial expression analysis.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, TypeScript
Frameworks & Libraries: FastAPI, REST API, React.js, Next.js, RTK Query, Material UI, SQLModel
Databases: PostgreSQL, SQLAlchemy, Alembic, asyncpg
Security: JWT Authentication, Role-Based Access Control (RBAC), Password Hashing
Developer Tools: Git, GitHub, Docker, Postman, DBeaver, pgAdmin, Visual Studio, Eclipse

CERTIFICATIONS

- Internship Certificate on Artifical Intelligence – Corizo (Oct 2023)
- Internship Certificate on Advanced Data Science – APSSDC (Feb 2024)
- Certification on JavaScript Introduction – edx (Apr 2024)
